### **QUESTION ONE**

You are conducting a session for your club. Players expect to play between 33 and 36 boards. What movement would you use for the following number of tables **and** how many boards will be played? Give details should some pairs play fewer boards. Provide **one only** movement for each number of tables.

**QUESTION TWO**

With 10½ tables and time to play at most 30 boards, you consider using an 11 table Mitchell movement curtailed by one round or adding a NS Rover to a completed 10 table Share & Relay Mitchell movement.

Is one movement more balanced than the other?

If yes, explain why this is so. If no, explain why they are equally fair.

**QUESTION THREE**

(a) Your 11½ table evening session has commenced playing a 1½ Appendix Mitchell movement with 3 boards per round. All tables have started playing their first board when Table 2NS receives an urgent phone call and both players must leave immediately. What changes do you make to avoid a second EW sit out? 30 boards are to be played.

(b) 27 boards have been distributed for a 5 table Howell. Some eager beavers have already started to play when you realize you have 5½ tables. Suggest a change to the movement that will cause minimal disruption.

(c) 32 boards have been distributed for an 8 table Share & Relay Mitchell. Another pair walks in. They had phoned to say they had been delayed but somehow you did not get the message. Suggest a change to the movement that will cause minimal disruption.

(a) Your session of 11 tables needs to have exactly 28 boards in play for a matchpoint pairs event to produce separate NS and EW winners. Each pair is to play all 28 boards. The same deals are being played simultaneously at a number of clubs.

What movement will you use? .....

(b) Number the tables below for your movement. Show the starting position for boards and pairs for this movement. Draw arrows to show how each pair will move at the end of round one and how the boards will be moved.

## QUESTION ELEVEN

You are to run a two session matchpoint pairs event to find a single winning pair overall.

In Session 1, 9 tables play a complete Mitchell movement using 36 boards.

In Session 2, 8½ tables play a complete Mitchell with a NS sit out using 36 boards.

Club policy is to combine the two slightly different sessions by adding factored matchpoints and not by adding percentages. Show how this is done.

## QUESTION TWELVE

Double Matchpoint the following 3 boards after making your rulings based on information given.

### **Board 1 Dealer N Nil Vul**

A player at Table 6 called you after playing this board and said, "The scores looked odd".

You discover that it has been played in a fouled condition at Tables 6 and 7 and return it to normal before being played at Table 5.

NS	EW	Contract	Won	NS	EW	NS	EW
1	1	6H N	11		50		
2	3	5C E	10	50			
3	5	6CX E	11	100

9	8	5HX N	11	650			
<b>CHECK TOTAL</b>							

**Board 6 Dealer E Vul EW**

Enter missing scores before matchpointing.

NS	EW	Contract	Won	NS	EW	NS	EW

9	7	2S S	6		100		
<b>CHECK TOTAL</b>							

**Board 29 Dealer N NS All**

Unfortunately, you made an error with a ruling at Table 5 and had to award a split score under Law 82C. After consultation, you awarded 6NT S (12) for NS +1440 to NS and 6NT S (11) for NS -100 to EW.

Just to be totally clear, NS get +1440 and EW get +100.

NS	EW	Contract	Won	NS	EW	NS	EW
1	3	4H N	10	680			
2	5	4S S	9		100
